FORMAL LEGAL NOTICE

TO:	**Honorable Council Members and Tribal Officials**
DATE:	August 17, 2026
CLASSIF:	Official Inter-Jurisdictional Security & Safety Escalation

SUBJECT

Formal Notice: Cross-Jurisdictional Cyberharassment & Doxxing Targeting Tribal Members

Honorable Council Members and Tribal Officials,

I am formally requesting an institutional review, a law enforcement investigation, and protective interventions regarding an ongoing cyberharassment and doxxing network targeting our community members and minors.

PRIMARY OPERATOR & LEGAL RECORDS IDENTIFICATION

Primary Operator: Lauren Turner ("Ren Turner")
Status & Scope: Non-tribal individual operating outside reservation boundaries to project digital harm onto sovereign tribal citizens.
Judicial Injunction: Subject to a standing Indiana judicial stalking injunction (**Case No. 49G16-1806-PO-023659**).
Documented History: Proven history of weaponizing fabricated claims against tribal families.

1. DIRECT HARM TO SOVEREIGN CITIZENS & TERRITORY

- **Exploitation of Minors:** Automated tools harvest data on tribal youth, subjecting them to public bullying, exposure, and targeted intimidation.
- **Systemic Doxxing:** Personal identification data, family networks, physical locations, and phone numbers of Indigenous members (including across Pine Ridge) have been leaked across her network.
- **Coercion & Retaliation:** Blocking or reporting her accounts triggers severe retaliation, including the non-consensual transmission of explicit shock media, gore, and pornography.
- **Malicious Misinformation:** This network originated the fabricated "grooming" hoaxes fed to families such as the Iron Eyes family, causing years of severe strain before being formally recanted in August 2024.

3. REQUESTED SOVEREIGN ACTION

1. **Law Enforcement Action:** Direct Tribal Police and Prosecution to document digital targeting affecting reservation addresses and tribal IDs.

2. **Federal Escalation:** Forward evidence to the BIA (Bureau of Indian Affairs) and FBI IC3 regarding interstate cybercrimes and harassment of Native American youth.
3. **Safety Advisory:** Issue an official community notice advising members, especially youth, to set their accounts to private and block these handles to break tracing scripts.

Respectfully submitted,
